Contents

NUMBER 1 JANUARY 1991

Review article

1 β-Adrenoceptor-G-protein-adenylyl cyclase system in cardiac disease: a new insight into desensitization
L. X. Fu, F. Waagstein and Å. Hjalmarson

Original communications

9 Renal and systemic plasma immunoreactive neuropeptide Y and calcitonin gene-related peptide responses to mental stress and adrenaline in humans
B. Tidgren, E. Theodorsson and P. Hjemdahl

21 A comparison of Doppler ankle pressures and skin perfusion pressure in subjects with and without diabetes
F. C. Quigley, I. B. Faris and H. J. Duncan

27 Relationships between skin temperature and perfusion in the arm and leg
H. B. Stoner, P. Barker. G. S. G. Riding, D. E. Hazlehurst, L. Taylor and R. W. Marcuson

41 Effects of ischaemic training on force development and fibretype composition in human skeletal muscle
O. Eiken, C. J. Sundberg, M. Esbjörnsson, A. Nygren and L. Kaijser

51 Serum creatine kinase activity and its changes after a muscle biopsy
R. S. Hikida, R. S. Staron, F. C. Hagermun, M. Leonardi, R. Gilders, J. Falkel, T. Murray and K. Appell

61 Left and right ventricular diastolic function during acute pericardial tamponade
O. A. Smiseth, M. A. Frais, M. Junemann, I. Kingma, H. Refsum, E. R. Smith, M. J. Lipton and J. V. Tyberg

73 Ventilatory response and arterial potassium concentration during incremental exercise in patients with chronic airways obstruction
T. Yoshida, M. Chida, M. Ichioka, K. Makiguchi, N. Tojo and M. Udo

83 Oesophageal transit in patients with autonomic dysfunction. The effect of treatment with fludrocortisone
F. Jørgensen, F Boesen, E. B. Andersen and B. Hesse

93 Instructions to authors

NUMBER 2 MARCH 1991

Review article

95 Respiratory variability and associated cardiovascular changes in adults at rest
J. G. van den Aardweg and J. M. Karemaker

Original communications

119 Atrial natriuretic peptide concentrations in umbilical cord plasma from pre-eclamptic women
S. Matzen, J. Nielsen, J. Christensen, H. J. Schütten, U. Knigge and J. Warberg

127 Histochemical demonstration of skeletal muscle fibre types and capillaries on the same transverse section
B. M. Hather, C. E. Mason and G. A. Dudley

135 Thermography and laser-Doppler flowmetry for monitoring changes in finger skin blood flow upon cigarette smoking
S. Bornmyr and H. Svensson

143 Coronary artery constriction is enhanced with nicotine and propranolol, particularly after endothelial damage
P. De Sousa, G. Cherian, J. Thomas and O. Thulesius

153 Endothelial mediated enhancement of noradrenaline induced vasoconstriction in normal and varicose veins
O. Thulesius, S. Said, H. Shuhaiber, P. Neglen and J. E. Gjores

161 Low-frequency transcutaneous nerve stimulation in mild/moderate hypertension
B. Kaada, E. Flatheim and L. Woie

169 Evaluation of the dynamic cutaneous post-ischaemic hyperaemia and thermal response in elderly subjects and in an area at risk for pressure sores
V. Schubert and B. Fagrell

183 Plasma levels of atrial natriuretic peptide at rest and during exercise in heart failure—influence of cardiac rhythm and haemodynamics
H. Berglund, M. Jensen-Urstad, E. Theodorsson and S. Bevegård

197 Instructions to authors

NUMBER 3 MAY 1991

199 Effects of dobutamine and salbutamol on haemodynamics and atrial natriuretic factor in patients with severe congestive heart failure
N. Keller, R. Sykulski and J. Larsen

211 Initial circulatory responses to changes in posture: influence of the angle and speed of tilt
R. L. H. Sprangers, D. P. Veerman, J. M. Karemaker and W. Wieling

221 Circulatory responses to stand up: discrimination between the effects of respiration, orthostasis and exercise
R. L. H. Sprangers, J. J. van Lieshout, J. M. Karemaker, K. H. Wesseling and W. Wieling

231 Pulmonary vasodilatation and augmentation of right ventricular function following terbutaline infusion in severe chronic pulmonary disease
K. Eliasen, C. Ringsted, O. Munck, E. Hjortsø and L. Heslet

245 Deep venous valvular function assessed with intramuscular pressure recording
S. Rosfors and J. Styf

253 The effect of cooling on toe systolic pressures in subjects with and without Raynaud's syndrome in the lower extremities
S. A. Carter

263 Effects of Vacusac in intermittent claudication: a controlled cross-over study
H. Himmelstrup, B. Himmelstrup, J. Mehlsen and J. Trap-Jensen

Contents

271 A morphometrical comparison of right and left whole human vastus lateralis muscle: how to reduce sampling errors in biopsy techniques
J. Lexell and C. C. Taylor

277 Cardiovascular autonomic reflex tests: normal responses and age-related reference values
S. Juhana Piha

291 Instructions to authors

NUMBER 4 JULY 1991

Review article

293 Aspects of sympathetic nervous system regulation in patients with cirrhosis: a 10-year experience
J. H. Henriksen, H. Ring-Larsen and N. J. Christensen

307 The effect of resistance training on blood pressure in normotensive women
R. M. Gilders, E. S. Malicky, J. E. Falkel, R. S. Staron and G. A. Dudley

315 Transcutaneous oxygen tension measurements in the assessment of limb ischaemia
F. G. Quigley and I. B. Faris

321 Estimation of pulmonary vascular resistance in patients with ventricular septal defects by echo-Doppler cardiography
D. Teien

331 Validation of body composition by dual energy X-ray absorptiometry (DEXA)
J. Haarbo, A. Gotfredsen, C. Hassager and C. Christiansen

343 Splanchnic release of neuropeptide Y during prolonged exercise with and without β-adrenoceptor blockade in healthy man
G. Ahlborg and J. M. Lundberg

353 Ambulatory measurement of nocturnal fluctuations in subcutaneous blood flow rate in the lower leg of man during 12-h periods with the portable CdTe(Cl) detector. Methodological considerations
J. H. Sindrup, J. Kastrup, B. Jørgensen, J. Bülow and K. H. Tønnesen

367 Preserved CO_2 response in cerebral and muscular blood vessels during cimetidine treatment
C. Saunier, G. Audibert, D. Hartemann, A. Sautegeau, P. Amend, O. Bigard and C. Alvernhe

375 Small accumulation of inosine monophosphate (IMP) despite high lactate levels in latissimus dorsi during transplantation
B. Norman, P. Hedén and E. Jansson

385 The forearm and leg perfusion techniques in man do not give the same metabolic information
A.-C. Möller-Loswick, K. Bennegård and K. Lundholm

397 Instructions to authors

Contents

NUMBER 5 SEPTEMBER 1991

Review article

399 Involvement of feedforward stimulation in cardiorespiratory and metabolic control during exercise
B. Sonne

Original communications

411 Blood volume distribution during head-up tilt induced central hypovolaemia in man
S. Matzen, G. Perko, S. Groth, D. B. Friedman and N. H. Secher

423 QRS scoring with the Mason-Likar lead system at rest and during ischaemia
M. Walamies

431 Recoveries of phosphatidylcholine and alveolar macrophages in lung lavage from healthy light smokers
B. Schmekel, A. R. Khan, M. Linden and P. Wollmer

439 The effect of forced expirations on mucociliary clearance in patients with chronic bronchitis and in healthy subjects
J. Mortensen, C. Jensen, S. Groth and P. Lange

451 Local and central sympathetic reflex control of blood flow in skeletal muscle and subcutaneous tissue in normal man
E. B. Andersen, F. Boesen and O. Henriksen

459 Metabolism in exercising arm vs. leg muscle
G. Ahlborg and M. Jensen-Urstad

469 Arterial and venous measurement in resting forearm of metabolic indicators during rest and leg exercise
I. E. Nordrehaug, A. Bjørkhaug, R. Danielsen and H. Vik-Mo

477 Adenosine infusion to patients with ischaemic heart disease may provoke left ventricular dysfunction detected by echocardiography
A. Edlund, P. Albertsson, K. Caidahl, H. Emanuelsson and I. Wallentin

489 Instructions to authors

NUMBER 6 NOVEMBER 1991

Original communications

491 Regional variations in nocturnal fluctuations in subcutaneous blood flow rate in the lower leg of man
J. H. Sindrup, J. Kastrup and B. Jørgensen

501 Skin perfusion patterns (fluorescein perfusography) during reactive hyperaemia in peripheral arterial occlusive disease
A. Scheffler, M. Bold, U. Lienke and H. Rieger

513 Cardiac contractility, central haemodynamics and blood pressure regulation during semistarvation
K. H. Stokholm, L. Breum, and A. Astrup

Contents

525 Effect of coronary bypass surgery on anaerobic myocardial lactate metabolism during pacing-induced angina pectoris
L. Kaijser, S. Gunnes and B. Berglund

537 Autonomic nerve function in children and adolescents with insulin-dependent diabetes mellitus
J. Åman, E. Eriksson and J. Lideen

545 Plasma lipid and lipoprotein profile in elderly female runners
M. Higuchi, K. Oishi, K. Ishii, K. Iwaoka, S. Matsuo, S. Kobayashi, T. Tamai, H. Takai and T. Nakai

553 Non-invasive evaluation of the conduit function and the buffering function of large arteries in man
P. D. Demolis, R. C. Asmar, B. I. Levy and M. E. Safar

565 Ultrasound measurement of wall thickness in the carotid artery: fundamental principles and description of a computerized analysing system
I. Wendelhag, T. Gustavsson, M. Suurkula, C. Berglund and J. Wikstrand

579 Reliability of impedance cardiography in measuring central haemodynamics
J. Mehlsen, J. Bonde, C. Stadeager, M. Rehling, M. Tangø and J. Trap-Jensen

589 Central haemodynamics in patients with severe postural hypotension
J. Mehlsen, C. Hædersdal and J. Trap-Jensen

603 Erratum

605 Instructions to authors
